The Need For Security

With the international situation, not only in Europe but also in the Orient becoming daily more fraught with peril, the necessity for a rejuvenated and strengthened League of Nations becomes apparent, if world peace is to be preserved.

First hint of the likelihood of an eventuality, which must have been obvious for some time to student-observers of international trends came in despatches recently to the daily press of this country when the Italian Mussolini was reported to be paving the way for a rapprochement between Italy, Germany and Austria by attempting to effect a reconciliation of differences between the last two mentioned countries.

When one considers the situation in which these three countries find themselves an alliance in a common cause appears a natural probability. All three sustained serious losses during the Great War and its aftermath. All three are in urgent need of extension of territory to provide an outlet for a large number of unemployed, partially submerged population, or as a source of raw materials or for the promotion of trade, or for all three. All three are in the same political as well as the same economic boat for they are fascist, dictator-ruled. The people of all three countries are intensely ambitious to regain what they have lost and this is probably the principal reason why they are content with the form of government they have.

It is true that the Italian aggression in Ethiopia appears, on the face of it, to have resulted in triumphant achievement for the Italian forces, but it is doubtful whether, in the long run, acquisition of Abyssinia, even if subsequent events do not result in some modification of the fruits of victory at the instance of the League, will prove of great economic benefit to Rome. In any event, it can surely be taken for granted that Mussolini and the Italian people, in their present frame of mind, will not be satisfied to call it a day and sheathe the sword.

With this Italian viewpoint prevailing and Germany and France eyeing one another with distrust and apprehension, an alliance between Germany and Italy, fortified by Austria, could not be calculated to render the European situation more secure. Both Italy and Germany are not only well armed and equipped but are perfecting their war machines to the nth degree of perfection, including the training of children of tender years.

The situation is an exceedingly difficult one for Great Britain whose people do not wish to be dragged into another conflagration. On the contrary the inhabitants of the "tight little isle" are bending their energies towards recovery of economic conditions and statistics prove that they are well on the road towards this objective.

While the British government is keenly alive to the dangers of the international situation, fortunately her statesmen are not disposed to be stampeded into any precipitate measures and quite evidently the people of the country are well satisfied with Anthony Eden's recent assurance that in the council of the League of Nations the country is prepared to "play its part."

Expressing satisfaction with this viewpoint the London Times in a recent editorial said:

"If the League, even the incomplete League, had disposed of the will, as it certainly disposed of the means, to bring aggression to a standstill by economic non-co-operation, nothing would now be heard of the contention that the refusal of the aggressor means war; peace would have made successful trial of its resources, and generally we should be looking on a very different picture today.

"Yet, even if the League had succeeded, as it clearly could have succeeded, in the policy of passive resistance, it would still have been necessary to write another chapter in its development and to increase its powers by completing its membership and making its functions correspond with its capacity. The obstacle to be overcome is the 'spirit of mutual distrust between France and Germany.'

"The outlook would be gloomy indeed if no effort were being, or could be, made to attack this mistrust at its roots, and no responsibility could be more willingly and gladly borne by British statesmanship than that of seeking the means to end an antagonism which survives to the common danger."

The Times goes on to say that this endeavor was moved into the stage of "serious practical discussions when the questions addressed to the German government on the subject of Herr Hitler's proposals for a lasting European settlement were published in a British White Paper" and suggests that conversations be pursued in a manner that will permit of "fewer opportunities for any possible misunderstanding of tone and intention on either side."

Only Too Clear

A motorist was giving a woman lessons in driving.

"The hand lever," he said, "brakes the rear wheels only, and the foot pedal brakes all four. Is that clear?"

"Yes," replied the woman, doubtfully, "but I'd rather not have any of them broken."

for PIMPLES
Add an equal amount of cream, or rose oil, to Minard's, and apply the mixture once daily. A simple treatment which will clear up your skin!

MINARD'S
"KING OF PAIN"
LINIMENT

Originated With Latin Poet

The expression "Rome was not built in a day" is believed to have originated with the poet Claudius Claudianus, one of the last of the Latin poets (about 400 A.D.). Claudianus wrote: "What Roman power slowly built, an unarmed traitor instantly overthrow." The proverb gradually became modified until it survives in its present form.

Not Room For Candles

John Birch of North Bay, Ontario, celebrated a birthday June 5, but the cake wouldn't hold candles enough to mark the occasion. Claimed to be the oldest white man in Canada, Mr. Birch entered his 114th year of life.

There are 950 firms in London more than 100 years old. 2155

Russian Armaments

Soviet Government Plans To Expend Huge Sum This Year

When the Japanese war office starts to draw attention to the weight of Russian armaments, there is some reason to suggest that the pot is calling the kettle black. Japan devoted 47 per cent. of her whole budgetary expenditure last year to defence, and this year proposes to spend 50 per cent. Even so her military budgets, and those of all other countries, pale into insignificance by comparison with Russia's. Marshal Tukhachevski, deputy-commissioner of defence, recently announced that in 1936 the Soviet would expend 14,800,000,000 roubles on her military forces. At the official rate of exchange this sum represents £2,600,000,000 sterling. Britain has for months been debating whether she should spend half the latter sum spread over a period of years, on modernizing her sea, land and air forces. From all this it is clear enough that, whether the Japanese war office wishes to put the nation on guard or merely to raise a bogey, it has substantial material to exploit.—Auckland News.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should be kept in good condition. It is the organ that keeps the blood pure and the body healthy. If it is not in good condition, the blood is impure and the body is weak. The liver is the organ that keeps the blood pure and the body healthy. If it is not in good condition, the blood is impure and the body is weak. The liver is the organ that keeps the blood pure and the body healthy. If it is not in good condition, the blood is impure and the body is weak.

A Serious Problem

Restoration Of Confidence In The Country's Wheat Is Needed

Canada's most serious problem in the opinion of Dr. W. Swanson, head of the department of economics at the University of Saskatchewan, is a restoration of confidence in the country's wheat.

This is particularly so after the "alarmist" publicity given to the product because of a temporary crop surplus, said Dr. Swanson. The surplus, he held, was only temporary although it has aroused wholly unfounded fears of overproduction.

"There has never been any world overproduction of wheat nor any chance of world overproduction," he said in an interview in Montreal. "There was a temporary condition of surplus produced by unusual crop conditions in 1928, which was exaggerated by the crash of speculative markets. It has been impossible for this country to sell its wheat freely at fair prices until this alarm dies down."

Made Hospital Governor

Honor Conferred On Seven-Year-Old Boy In England

George Thornton, aged seven, of Nottingham, is the youngest hospital governor in England. He has just been elected a life governor of the Royal Eye Hospital, Southwark. The honor was conferred on him because of his success as a collector for the hospital. George was a patient at the hospital two years ago.

AFTER EVERY MEAL

Depends On The Country

Whether Gold Shipments Have To Be Heavily Guarded

A traveler recently returned from foreign parts tells me a story about gold. It seems that the ship on which this traveler returned loaded a large consignment of gold at Havre. The stuff was loaded much like any other cargo, only it was lowered into a special hold. And what struck my informant about the operation was the fact that while the loading was in progress not a single uniformed minion of the French law was in sight on the dock or on the ship.

There were numerous representatives of the banks making the shipment and numerous French longshoremen in blue blouses gesticulating and calling to each other in the high-pitched nasal tones which foreigners who try to learn French are never able to reproduce. The banks' agents simply checked the gold aboard and the ship's officers checked with them. Then the hatches were closed, and that was that.

But when the ship got to New York passengers were astonished to see what looked like a whole platoon of police rush on the gangplank the moment the ship docked.

The voyager from whom I had the story says he thought, perhaps the ship was bringing back some dangerous criminal incognito, but when he inquired he found that the police had come aboard only to stand guard while the gold was being unloaded.—Baltimore Sun.

SELECTED RECIPES

CANADA CAKE

- 1 cup white sugar
- 2 eggs
- 1/2 cup milk
- 1/2 cup butter
- 1 1/2 cups Purdy Flour
- 1 1/2 teaspoon baking powder
- 1/2 teaspoon salt
- 1 teaspoon vanilla

Method—1. Cream butter. 2. Add sugar gradually. 3. Beat in unbeaten eggs. 4. Add milk and vanilla. 5. Sift flour with baking powder and salt and add to mixture No. 4. 6. Bake in layer or loaf cake tins in moderate oven of 375 degrees for 20 minutes.

Recruiting Officer—So you want to enlist, do you? Are you sure?

Candidate—Yes, sir. I belong to the fighting MacGuire's and we never miss a scrimmage. I want to enlist for the duration of the war—or longer if it keeps up that long.

Moscow, Russia, reports that over 100 Soviet radio balloons have been sold in other countries.

Letter Will Be Treasured

Has Been Twice Around World And Was Sunk In Air Liner

Rare letter was found among the letters recovered from the sunken air liner, City of Khartoum, which crashed into the sea off Alexandria, killing 12 people. It had been twice around the world. The letter, was sent to Mr. E. W. C. Hughes, of Bowaters (of Australia), Ltd. It was posted in London to reach Mr. Hughes when he arrived in Montreal. He had already left Montreal when it arrived. The letter was then forwarded to him in New York. It missed him there too. From New York it was sent to a wrong address to Sydney, and redirected to the sender in London. It set out again on its travels in the City of Khartoum and went to the bottom of the sea with the rest of the mail. And now at last the letter has reached Mr. Hughes, who says he will treasure it as a memento of a very tragic occurrence. Although it is lettered and stamped with salt water, the contents are easily legible.

Rather Snappy Problem

Deciding Whether Rubber Bands Were Classed As Stationery

Rubber bands vexed the Dominion railway board when it tried to decide whether they were stationary and hence entitled to lower freight rates.

Hon. Hugh Guthrie, chairman, said they were used in stores instead of string and string is not stationery. They are nearly all sold by stationers so must be stationery. D. W. Buchanan argued for the Stationers' Guild of Canada. George Ranson, chairman of the Canadian Freight Association, declared "drug stores sell sandwiches, but that doesn't make sandwiches drugs."

Elastic bands have an elastic price, Mr. Ranson said. In Toronto they are \$150 a unit, in Montreal \$120, in Regina \$175.

Lived Centuries Ago

Gold-Encased Body Of Old Chief Priest Found

Discovery of a gold-encased body, believed to be that of Ka Nih, chief priest in the fifth Egyptian dynasty, was announced by Selim Hassan Bey, professor of Egyptology at the University of Cairo. The professor found a body wrapped in gold leaf and wearing a thin gold crown. A head necklace also was found as well as a gold-encased cane. Ka Nih was Director of Granaries, chief scribe and chief priest to the Pharaoh Sahure. Sahure lived about 3200 years B.C.

Pay Tribute To Memory Of Man Who Did Much For Agriculture In Canada

Doubtless there were few persons who foresaw that the birth of a boy in the County of Devon, England, on June 16, 1859, christened William Saunders was an event that would later prove of the most profound significance to the Dominion of Canada. The fact is that no other man has made a greater contribution to Canadian agriculture than the late Dr. William Saunders. The chain of Dominion Experimental Farms and Stations is virtually a monument to the work he began 50 years ago, for he was the first director of this system of farms, which are now located in strategic positions across the entire length of the Dominion.

The new administration building at the Central Experimental Farm to be known as the William Saunders Building, and which was opened on June 6, stands upon the site of his former home.

William Saunders came to Canada as a boy of 12 with his parents, who settled at London, Ontario, and there on September 13, 1914, three years after his retirement as director of the Dominion Experimental Farms, his long, useful life closed. His death removed a man whose contribution to the national welfare in its widest aspect, was fully equal to that of any statesman, or great man in any of the other vocations. It was said of Dr. Saunders that no man did more or will ever have opportunity which he had and which he took the fullest advantage to increase the production of land in Canada.

When Hon. John Carling (later Sir John) as Dominion Minister of Agriculture, who represented London, Ontario, in the House of Commons was authorized in 1885 to proceed with the organization of a system of experimental farms, he selected his fellow citizen, William Saunders, who by that time had established a reputation as a botanist, entomologist, horticulturist and business man to visit the United States for the purpose of learning how the experiment stations in that country were operated and with what success.

The previous year a Select Committee of the House of Commons was appointed to inquire into the best means of encouraging and developing agriculture in Canada and the establishment of experimental farms was the committee's recommendation. William Saunders' report, following his visit to the United States, resulted in the act passed in 1886 by the Dominion Parliament for the establishment of an Experimental Farm for the provinces of Ontario and Quebec jointly; this farm to be known as the Central Farm—together with one for the Maritime provinces, one for Manitoba, one for the Northwest Territories (now the provinces of Saskatchewan and Alberta) and one for British Columbia.

Dr. Saunders' interests, however, included all phases of ornamental horticulture. He was largely responsible for introducing and disseminating in Canada the Caragana or Siberian Pea Tree, which he recognized as having great possibilities for Western Canada on account of its extreme hardiness and rapid growth under semi-arid conditions. His breeding work with roses resulted in the creation of varieties such as the Agnes and Mary Arnot, while many new varieties of gladioli and other flowers were the result of his efforts. His knowledge of Canadian trees and shrubs resulted in the Arboretum at the Central Experimental Farm, Ottawa, and excellent plantings on the five original experimental farms and on many public institutions throughout Canada.

Dr. Saunders' introduction to Canada of many varieties of forage crops which play a very important part in the present production of such crops is probably not generally recognized. It was he who in 1887 introduced Bromus grass from Russia. Earlier work inaugurated by him brought into domestic use on such a large scale Western Rye grass, while his early interest in the introduction and adoption of better varieties of corn, clovers, and the like, resulted in ex-

periments which in turn caused the adoption of crop practices on which the live stock industry of Eastern Canada has been built.

Because of the great need for newer and better cereals and the lack of such varieties throughout the world, Dr. Saunders displayed a particular interest towards the unexplored field of plant breeding. He realized that a significant contribution was possible in the field of cereal production. The great North West needed earlier maturing and better varieties. Shortly after his appointment as director of Experimental Farms he undertook to apply the same methods of plant breeding to cereals as he had already succeeded in applying to hush and tree fruits. Importations of varieties of wheat were made from Northern Russia, Northern India, Japan, United States, and elsewhere, but those from the first two mentioned places proved to have the early maturity he so much desired. Unfortunately these varieties were low in yield and of inferior milling quality; hence, in 1898 he began a program of cross-breeding, which in five years' time produced over 700 new sorts of wheat, the most of which carried the parent characters of either Red or White Fife varieties, which were well known as later maturing, high quality wheats, with also the early maturity characteristics of the imported sorts. Many varieties of cereals which were fixed in type and distributed by him from this earlier work include spring wheat such as Huron, Percy and Preston, Stilla barley and Arthur and Mackay field peas. Many exceedingly promising second and third cross wheats still remained to be perfected by rigid selection, such as Markham, the variety from which Marquis was later selected.

By the year 1908 Dr. William Saunders had trained his son, now Sir Charles Saunders, as his successor in cereal breeding work and turned over to him for further perfection some 48 varieties of wheat, 11 varieties of oats, 23 varieties of barley, and 24 varieties of peas, together with a vast amount of hybrid material not yet fixed in type. With this foundation on which to work, Sir Charles Saunders developed Marquis wheat.

Dr. William Saunders was a great administrator. Those who knew him loved him. He was always kind and considerate, never petulant, but quiet, firm, endowed with excellent judgment of both men and affairs. There was no impetuosity or desire for recognition in his character. His regard for the truth in all things was an inflexible characteristic, and he was a strict disciplinarian. He had a fine respect for the public purse, which at the time the farms were started, was an essential attribute, for otherwise the system might have been wrecked in its infancy. In looks Dr. Saunders personified the benevolent savant that he was.

New Society In Japan

Beard Growers Organize And Over 100 Men Enrolled

Whiskers, beards and mustaches of many shapes and sizes were on display in Tokyo when their owners gathered from all parts of Japan and Korea to organize a national society dedicated to the fostering of "beautiful grooming" among old men. More than 100 men, whose ages averaged 70 years were enrolled. Only a few black beards were in the lot, no reds, but plenty of greys. One mustache originated beneath its owner's nose, then swooped out about eight inches to his left and right, and ended with a tuck in each ear. The record beard, owned by Noburo Kato, 72, was five feet long, six inches wide, and he carried it in a bag when he walks.

"Teacher" (during history lesson): "What are the races which have dominated England since the invasion of the Romans?"

Small Boy: "The Derby and the Grand National, Miss."

Population Figures

Jama Has Over Eight Hundred Persons To Square Mile

In an area of approximately 54,200 square miles, Czechoslovakia has a population of 14,000,000.

Half of Australia's population of 3,500,000 lives in capital cities and another 15 per cent. in provincial towns. The remaining 85 per cent. provide more than half the produce of the Commonwealth.

The Philippines, with all their 7,083 islands, have an area of only 114,000 square miles, or about that of the state of Arizona. The population of the Philippines is almost 12,000,000, while Arizona has only 435,000 inhabitants.

Belgium supports a population of more than 5,000,000 on an area of about 12,745 square miles. Java is the most thickly populated country in the world. It has 831 persons to the square mile. More than one-fifth of the local population of England and Wales live in Greater London.—National Enterprise Association

Has Faith In Newspapers

Chicago Firm Believes They Are Best Advertising Medium

General R. E. Wood, president of Sears, Roebuck & Co., Chicago, announced that his company will spend \$9,500,000 for newspaper advertising in 1936. The advertising campaign, which will include 851 newspapers in 44 states, is a result of the company's experiments with almost every type of medium since the opening of its retail stores eleven years ago, according to G. W. Cunningham, advertising manager.

"Results have demonstrated to us that the newspaper is by far the most effective medium for the promotion of our retail sales," Mr. Cunningham said.

General Wood also announced a proposed increase of \$40,000,000 in the firm's merchandising program in 1936. "The program for 1936 is based on our belief in a further business revival and in the maintenance of improved farm conditions," he said.

Continue Work In North

Dominion Geologists To Carry On Investigations In Saskatchewan

Two Dominion geological parties will operate in northern Saskatchewan this year, one in the Rottenstone lake area, and the other at the eastern end of Lake Athabasca at Fond du Lac.

Dr. F. J. Alcock of the department of mines, Ottawa, will be in charge of the work at Fond du Lac. Early this spring representations were made to Hon. T. A. Crerar, minister of mines, to have work continue in the north and as a result of these representations the federal government has agreed to send these two parties in to continue investigations.

Story Is Told Of Aid Given American Legation In Addis Ababa By British

Capture Sea Serpent

Strange Creature Discovered On Beach At Pacific Coast

A 12-foot 1,300-pound "sea serpent," discovered on the beach near Aberdeen, Wash., was being examined by a zoologist, D. W. Black, of Baltimore, and his two assistants.

Black said the creature faintly resembles reconstructed skeletons of prehistoric animals. The creature has a head similar to that of a goat, eyes eight inches apart and deep-set like a pig's, and heavy, sharp teeth.

The nose is missing, but the distance from the crown of the head to the end of the snout is 14 inches. The body is tapered like a buffalo's, with a four-foot tail like that of a muskrat.

With heavy and oily skin, the creature has 14 ribs, each about an inch and a half wide and four inches apart.

Black said that in 16 years of research he never saw such an animal before.

Two years ago a "sea serpent" was washed ashore near Prince Rupert, B.C., but he turned out to be a wax-nosed shark.

Alarm Times 'Phone Talk

Device Gives Warning Half Minute Before Time Is Up

It no longer is necessary to watch the clock to avoid extra charges in telephoning. When the telephone operator announces that the three-minute interval is up, sometimes persons are in the midst of a conversation that cannot be finished without an extra fee.

An ingenious telephone call-time has been devised which warns of the approach of the end of the call. The device consists of an hour-glass arrangement which rings a bell at the end of two and a half minutes. The half-minute which follows before the end of the telephone period should be long enough to finish the conversation. The phone call alarm which was shown in Germany at the Leipzig fair is devised for world-wide use, as the limit for telephone call is three minutes in virtually every civilized country in the world.

Revert To First Principles

If the benefits of Christianity were taken away, in less than three generations, man would be like beasts and gangsterism would spread through the community, crushing out those unable to resist power, declared Major H. A. Proctor, member of the British House of Commons, speaking at the Ontario convention of the Church of Christ Disciples, London.

An interesting story is told of the manner in which aid was given to the American Legation in Addis Ababa by British troops before the triumphal entry into the city by the Italians. The Legation in Addis Ababa were impeded by riotous Abyssinians before the arrival of the Italian troops. American newspapers were greatly excited over the efforts made on behalf of the United States Legation by the British guard of the British Legation; and the American Ambassador has revealed how British assistance was solicited. The two Legations were only five miles apart; but the Americans were beleaguered by a murderous rabble and no message could be sent direct. However, with a small portable wireless set the American minister got in touch with one of his country's warships, who relayed it, via the Philippines, to San Francisco and Washington. Washington got on the trans-Atlantic telephone to the American Embassy in London; Mr. Bingham rang up the Foreign Office; and five minutes later Sir Sidney Barton in Addis Ababa was making his dispositions for the relief of the threatened Legation.

The story was fully and generously told by Mr. Bingham at a Guildhall dinner. He explained that when the news of the American Legation's danger reached Sir Sidney Barton, the British forces were engaged in beating off the attack on the Belgian Legation, which lay next door.

There were perhaps some 3,000 refugees within the compound of the British Legation. If the Belgian Legation were taken it meant the slaughter of many people but the very moment that that attack was beaten off an armed convoy went to the rescue of the American Legation and his wife and the American citizens in our Legation. That is just a fundamental fact. It happens, and always will happen. It has been our privilege to extend that kind of aid. On this occasion it came unhesitatingly. It came exactly as I knew it would come—immediately, sympathetically, brave, and resourceful.

The King, who received from Mr. Bingham the thanks of the American President, sent his own congratulations to Sir Sidney Barton and to the Legation staff and guard. Belgian thanks were conveyed by the Belgian Ambassador through the Foreign Office.

Equals European Wood

Newfoundland Timber Is Good But Needs More Care

Newfoundland timber was generally admitted to be at least equal to Northern European wood in physical qualities, but the same care in production was not taken, Jack Miner, chief forestry officer of the department of natural resources, said in a report published following a study of United Kingdom markets.

Chief Forestry Officer Turner said he talked with importers, dealers and users, operators of two coal mines, a paper mill, one newspaper mill, and a number of timber storage yards during his tour.

"Newfoundland wood is strong enough for pitprops and structural timbers and gives a high yield of good fibre for paper making. Our spruce and balsam are rated as good raw material.

"Unfortunately, the finished product—pitprops, pulpwood or wood wool stock—is often not good," the report stated.

What it was "almost unobtainable" for a shipment of Finnish or Russian wood to be rejected, some wood was turned down in almost every Newfoundland shipment to the British Isles.

Starts Flying Mission

Using his aeroplane, Silver Wings, and a mobile broadcasting unit, Rev. O. D. Boulton of Worthington will embark on a "flying mission" to cover the whole of England. Mr. Boulton, who is known as the "Flying Curate," aims at reaching the young and unattached, and take religion to them rather than wait until they come to the church.

Begin Right Away On This Applique

Picturesque Iris—vivid tulips in sturdy pots! And you can have your own "never fade" variety indoors, all the year round! It takes but a bit of needlework, gardening, or "applique" to make them bloom gaily along a towel or pillowcase border, or on a dresser scarf. Just idea scraps make the simple patches, and a bit of some, their outline and stems. You'll also want companion pattern 5644, which appeared a short time ago, to complete a set of "flower pot" lines.

In pattern 5645 you will find a transfer pattern of two motifs 5 1/4 x 1 1/2 inches two motifs 3 1/2 x 1 1/2 inches and the patterns for the applique patches; the material requirements and the suggested illustrations of all stitches needed.

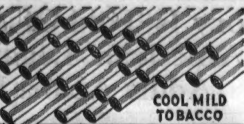

To obtain this pattern send 30 cents in stamps or coin (cash preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

WORLD HAPPENINGS BRIEFLY TOLD

The skull of the Marquis de Montcalm, governor of French Canada at the time of the British conquest, will be placed on exhibition in a Quebec museum.

The king has given his patronage to the British council, set up to promote closer cultural relations between the United Kingdom and foreign countries.

It was authoritatively stated Australia will accept the plans of the British government for a bi-weekly flying-boat service between Singapore and Port Darwin. It is planned to begin service August, 1937.

Unemployed in the United Kingdom declined by 126,188 in the period from April 27 to May 25, it was announced. Insured employees as of the latter date totalled 10,831,000, an increase of 120,000 over the month.

Frank Barnard and Fred Schrader of Edmonton, both blind, have made a model of the liner Queen Mary. On a scale of one inch to 25 feet, the model is 41 inches long and complete in every detail.

Negotiations are afoot looking to a faster and better steamship service between Canada and Australia and New Zealand. Hon. W. D. Euler, minister of trade and commerce, told the House of Commons.

J. R. Burridge, junior city clerk in Halifax, earned \$920 last year and won a \$90 increase. This put him over the \$1,000-a-year class, where he was subject to a 10 per cent. cut. Now he draws \$909 a year.

Plans for a flight across the South Atlantic in a free balloon were being made by Dr. Zimmer, famous Hamburg pilot. The 3,700 miles between Casablanca, Morocco, and the mouth of the Amazon river can be covered in from five to eight days with prevailing winds, the balloonist said.

Manitoba is free from grasshoppers this year, for the first time in five years. H. E. Wood of the provincial department of agriculture stated recently. He said that \$50,000 voted by the legislature for a poison-bait campaign will not be needed.

Fly Mathematics

Fly Can Become A Great, Great, Great, Grandmother In Only A Few Weeks

A single female fly usually lays 600 to 1,000 eggs in her lifetime. Under favorable conditions these eggs hatch in ten or twelve days and there is an opportunity for seven or more generations in a season! In other words, this single fly can produce in only three generations, a few weeks apart, as many as one billion disease carrying menaces to health.

It is obvious that every effort should be put forth to destroy the first flies of the season. Each of the early flies killed means destruction of potential swarms.

As a menace to health, to say nothing of its disgusting loathsomeness, the fly is known to be a carrier of the germs of summer diarrhoea, typhoid and other serious diseases. And, although sanitation efforts have been instituted to curb many sources of contagious diseases, there has been little success in eradicating the common house-fly.

It is a matter of requiring personal effort to keep the home clear of flies. The elimination of possible breeding places such as uncovered garbage, refuse, manure, and rotting leaves, screens on doors and windows and covering of all foods, are all necessary precautions. But should flies enter the home, a few Wilson's Fly Pats, used regularly according to directions, will kill them all in a few hours.

With reference to that watch on the Rhine, sooner or later somebody's going to get the works.

The seeds and skins of grapes yield an oil that is finding a number of uses in German industry.

Preserving B.C. Landmark

Directional Finder Will Be Carefully Guarded In Future

A block of stone engraved with lead letters, left at Vancouver, B.C., in 1898 by the crew of H.M.S. Egria to determine longitude and latitude, has been uncovered near the sunset gun in Stanley Park.

The stone, buried under moss and gravel, was formerly used to correct errors in ship's instruments but fell into disuse and was completely forgotten.

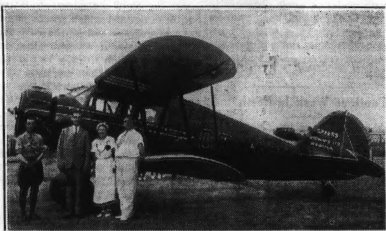

Inscribed on the stone is the exact longitude and latitude of its position with a note it was placed there by the Egria, historic British survey ship.

The mark is badly worn by feet of careless visitors who were unaware a historic relic lay hidden beneath them. Steps are being taken to preserve the landmark. A protective barrier of chain and concrete will be erected around it or it will be raised on a stone pedestal surrounded by a small garden plot.

Record Parachute Jumps

More than 800,000 parachute jumps were made from special parachute-jumping towers in Russia last year, according to figures just issued in Moscow. Russia claims, it is stated, that she now leads the world in parachute-jumping, holding all the records.

MARCH OF PROGRESS

Year by year improvements succeed one another, on the prairies. The ox-cart gave way to the horse and buggy, and the horse and buggy gave way to the automobile, until now aeroplanes are gradually taking over many of the duties of the automobile. The latest step in the line of progress on the prairies is the coming of a powerful, high speed aeroplane ambulance to Regina to serve Saskatchewan, whose sponsors believe will save a great many lives. Preparations for the institution of this new service have been under way for a great many months. In the use of this aeroplane, the patient at a country clinic is placed on a stretcher, wrapped in blankets and is kept free from the danger of chills until admission to hospital.

This Lacy Knit Makes Needles Fly

PATTERN 5535

"Clickety-click" go the jiffy-knit needles, intent on finishing this lacy blouse in two days' time. Composed of but two identical pieces, needing only side seams joined, you'll find both lace stitch and contrasting plain knit stripes work up quickly. Make this, and the skirt of Shetland fleece. In pattern 5535 you will find complete instructions for making the blouse and skirt shown in sizes 16-18 and 36-40; an illustration of them, and of all the stitches needed; material requirements. To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 316 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Great Progress Made

Montreal Doctor Hopes Eventually To Stamp Out Scarlet Fever

Scarlet fever, number one infectious disease, on the doctor's list, since diphtheria has been conquered, is now generally considered to be no more dangerous than chicken pox or measles, according to Dr. H. B. Cushing, Montreal, who presented a paper on the disease before the recent annual convention of the Ontario Medical Association.

Dr. Cushing warned that while scarlet fever is practically under control with the mortality rate down to one per cent., there is still danger of epidemics of great seriousness.

"If there were no scarlet fever many infectious hospitals would be closed," said Dr. Cushing. The development of tests and anti-toxins by Dr. and Mrs. Dick have added greatly to prevention, diagnosis and treatment, but these are not quite as satisfactory as similar methods used in diphtheria cases, he said.

Dr. Cushing was of the opinion the use of serum for scarlet fever is justified and was optimistic the disease would eventually be stamped out.

"Scarlet fever is practically certain to return in a very virulent form," said Dr. Cushing, "but it is comforting to know we can control the disease with serum."

Barometer Of Temperament

Teeth are a barometer of your temperament. If they have a bluish hue, you're temperamental; maybe even inclined to be neurotic. Yellow teeth indicate a jolly disposition. And pearly white teeth—the kind every one yearns for—are a sign of poor molars. . . . And speaking of teeth: America's sweet tooth has caused the per capita consumption of sugar in this country to nearly double since 1900.

SUNDAY SCHOOL LESSON

JUNE 21

JESUS EXALTED

Golden text: Wherefore also God highly exalted him, and gave unto him the name which is above every name. Philippians 2:9.

Lesson: Luke 24.
Devotional Reading: Hebrews 2:5-9.

Explanations And Comments

Jesus Appears to the Eleven Disciples, Luke 24:30-43. On the evening of the first Easter, while the two of whom Jesus had made himself known at Emmaus in the breaking of bread were telling the apostles in Jerusalem of their wonderful talk with the Risen Lord, he himself suddenly appeared in their midst and gave them the customary form of greeting, "Peace be unto you." The apostles were terrified, for they supposed they were beholding a spirit, a form recognizable as that of Jesus, but of Jesus not risen from the world of the dead disembodied or only with an apparent body.

"Why are ye troubled? and wherefore do questionings arise in your heart?" he asked, and then to reassure them, to convince them that he was living and was not a disembodied spirit, he bade them see and touch his hands and his feet. "A spirit hath not flesh and bones, as ye behold me having," he told them. "The resurrection body could evidently offer resistance to touch, but its nature escapes our conception," (A. E. Garvie).

While they still disbelieved for joy ("a curious yet real state of mind") he asked for something to eat, and when they gave him a piece of a broiled fish he ate before them.

The Leave-taking, Luke 24:50-53. Luke here omits all the other incidents of the forty days and records the ascension. With verse 50 compare Acts 1:1-11 and Eph. 4:10. They were on the eastern slope of the Mount of Olives, facing Bethany. The apostles believed that the abode of the blessed was up in heaven, and therefore the account speaks of Jesus as being carried up into heaven. "Jesus withdrew from the sphere of the seen and physical to the sphere of the unseen and spiritual. He is an unseen, divine Presence superior to the limitations of time and space." (C. R. Erdman).

There was no longer any doubt in the disciples' minds about the Deity of Christ, and they worshipped him. They returned to Jerusalem with great joy, for they knew that they had not lost their Lord, that his promise was true, he would be with them always. And they were continually in the temple at all the stated hours of worship blessing God.

If small grease spots occur on silk materials, as quickly as possible, cover with talcum powder and let stand two days, then brush off with clean stiff brush. Very simple and yet effective.

Victim—"Hey, that wasn't the tooth I wanted pulled."

Denial—" 'Calm yourself, I'm coming to it!'"

Many Years At Sea

Sir Edgar Britten Started His Career In Sailing Ship

Sir Edgar Britten, toiling the Queen Mary out on the high seas, first went to sea in sailing ships 44 years ago. In his youth he jettisoned his middle name, Theophilus, and it seems a pity, for he resembles the Roman Emperor and it was an apt name. Theophilus was an iconoclast and humorist, and so is Sir Edgar.

He has hidden pretty nearly everything the Cunard line ever set afloat, and was commodore of the Cunard fleet and captain of the Berengaria, among many others. He was knighted in February, 1934, the third of the Cunard staff to be selected for this honor. The others were the late Sir James Charles and Sir Arthur Rostron. The only White Star commodore who has been knighted is Sir Bertram Hayes.

Last fall, due to the consolidation of the Cunard and White Star lines, there was much uncertainty as to the command of the Queen Mary, with matters of seniority involved. Sir Edgar, ready to retire at 60, was persuaded to sign on for three years more.

"You must be a proud man," says the King to the captain.

"I am, sir," says the captain to the King.

He left grammar school to become a sailor on the Barque Jessie Osborn. He joined the Cunard service in 1901. In 1903, he was given a commission in the Royal Reserve. Multitudes of sea-going folk know him and esteem him highly. He has not only a trim ship and trim person, but a trim vocabulary. He is a great spinner of yarns and given to salty and witty discourse.

Marine Broadcasting Station

Latest Radio Equipment Integral Part Of Belfast Liner

According to the London Times, a new liner is now being built at Belfast which will have as an integral part of its equipment a complete broadcasting station. It will have not only an adequately powered transmitter of latest, most up-to-date design but specially constructed broadcasting studios and a special personnel for the purpose of planning and producing programs for the benefit of listeners ashore. The name of the ship is the Kanimbla.

When completed, it will sail from Belfast to its home port in Melbourne, Australia, where it will be put into active service between Adelaide, South Australia, and Cairns, North Queensland. The Kanimbla will be the first marine broadcasting station to be licensed by a government to transmit entertainment on regular schedules for listeners on land.

SENATE REJECTS AMENDMENTS TO THE B. N. A. ACT

Ottawa.—Senate division bells rang the death knell of immediate constitutional reform when the predominant Conservative majority of the red chamber united in a straight party vote to defeat 40-15, the joint petition to Westminster asking for specific amendments to the British North America Act.

Mr. Hon. Arthur Meighen, Conservative leader, refused to accept a proposed amendment from the government side which sought to satisfy objections to the proposal to obtain constitutional power for the provinces to impose indirect taxation. "I am against the amendment and against the address," he declared.

The Conservative leader declared the time had arrived when the government should come to grips with the problem of provincial expenditures for social services they could not afford and relief of unemployed who refused to work.

The joint address, which was adopted in the House of Commons without division, was a petition to the British parliament to amend the British North America Act in two respects. One clause sought power for the provinces to impose sales taxes on certain classes of commodities, the other to provide necessary power for the minister of finance to set up provincial loan councils.

Under the constitution provinces may impose only direct taxes and the indirect taxation field is restricted to the Dominion. Certain forms of indirect taxation, such as those on luxuries and entertainment, are already being imposed but subject to challenge on constitutional grounds.

There was little debate on the loan council phase of the address, but Hon. Raoul Dandurand, government leader, declared from the first that no motion could be adopted that would take anything away from the address. Defeat of the amendment by a recorded vote was followed by rejection of the address on the same division.

Previously, after the address had been studied before the senate banking and commerce committee, a recommendation from that body, originating with Senator Meighen, that the taxation clause should be deleted was adopted in the senate by a vote of 50-10, with the Liberals supporting the Conservative motion. These three senators—A. C. Hardy (Brookville), E. S. Little (London), and J. J. Hughes (Prince Edward Island), returned to the Liberal side in the final vote.

Opposition to the address had been based mainly on the conviction expressed by Mr. Meighen that to legalize imposition of indirect taxation to the provinces would be to set up what would be an effective tariff wall about itself and lead to disintegration of the Dominion.

Senator Meighen went further and launched a bitter attack on the conditions which had led to provinces entering into heavy expenditures for social services beyond their power to pay, imposition of taxes which a great number of people could not pay, and sustaining unemployed who would not work.

Other senators on the Conservative side raised the question as to whether the provinces really desired the constitutional changes, declaring that no concrete evidence had been laid before them that such an agreement existed.

Experts Go To England

Ottawa.—The advance guard of departmental experts who will start reviewing Canada's trade agreement with the United Kingdom sailed June 12 from Montreal. The experts will lay the groundwork for possible negotiations later in the summer when ministers of the government will go overseas.

Every farmer in Russia between 18 and 45 has been ordered to work six days a year on road construction without pay.

Scotland Yard Expert

Sir Patrick Quinn Of Investigation Department Is Dead

New York.—A London despatch to the New York Times says Sir Patrick Quinn, 80, former superintendent of the special branch of the criminal investigation department Scotland Yard, is dead.

Because of this knowledge, he was invariably entrusted with the protection of Queen Victoria, Edward VII. and George V. during their sojourns abroad and also was made responsible for the safety of all foreign rulers visiting England. Sir Patrick shunned publicity. When a few weeks after the outbreak of the war it became known that he had been able to round up nearly all the principal German spies in the United Kingdom, it was suggested that his success should be published, but he objected.

"For heaven's sake," he said, "let everybody think us stupid and inefficient! It is our greatest asset."

Would Lift Sanctions

Neville Chamberlain Urges System Of Regional Security

London.—Lifting of sanctions from Italy and organization of a system of regional security pacts were urged by Neville Chamberlain, chancellor of the exchequer.

Addressing the 1900 Club, the chancellor added that before these proposals can be "translated in action, we must take counsel with others, particularly those dominions whose partnership with us means so much for the influence of the British empire in the world."

Mr. Chamberlain alluded to the recent circular of Viscount Cecil to members of the League of Nations union urging pressure against the government to pursue sanctions and even intensify them with the object of still preserving the independence of Ethiopia.

That, the chancellor declared, "is the very midsummer of madness."

Reduced Railway Fares

Special Holiday Rates Arranged For Dominion Day

Winnipeg.—Reduced fares between all points in Canada are announced by the Canadian Pacific and Canadian National railways for Dominion Day, July 1, according to Joseph B. Parker, western secretary of the Canadian Passenger Association.

With the holiday falling on Wednesday, tickets are made good from Tuesday, June 30 to July 1. These can be obtained for the going journey from June 30 to 2 p.m. on July 1, and returning as good till midnight on Thursday, July 2.

As arranged also for the King's birthday, June 23, the Dominion Day fares include one-way coach class fare and one-third for the round trip good in coach and in tourist sleeping cars on payment for that accommodation, and one way first class fare and one-third for the trip good in sleeping and parlor cars on payment for this first class accommodation.

From the number of enquiries already received at headquarters of both railways, both King's birthday and Dominion Day holiday rates indicate a large passenger list.

Had Narrow Escape

Darjeeling, India.—Reports from the British advance party seeking to climb Mount Everest said the group had narrowly escaped death June 6 when a sudden avalanche swept down the mountain side. The party was trying to reach camp four, high up on the slope toward the 29,000-foot peak, the loftiest in the world.

Ends First Round Trip

Southampton.—R.M.S. Queen Mary, completing her first round trip to North America, docked June 10 at 2:25 p.m. G.M.T. (7:25 a.m. M.S.T.).

The Queen Mary was delayed by fog on her first eastbound transatlantic trip, as she had been on the outward journey.

Honors For Sir Edward Beatty

New York.—New York University conferred an honorary degree of doctor of laws on Sir Edward Beatty, president of the Canadian Pacific Railway and chancellor of McGill University.

RETURNS TO CABINET

Sir Samuel Hoare, brilliant British parliamentarian, who was forced to resign from the Cabinet several months ago, has returned to the British Cabinet as First Lord of the Admiralty. This is a very important post, particularly in view of the present tense situation in Europe and Asia.

Just A Formal Motion

Finance Minister Asking Authority To Borrow Up To \$750,000,000

Ottawa.—Authority for the necessary refunding and borrowing the government may normally expect in the next two or three years will be sought from parliament in a resolution appearing on votes and proceedings in the name of Finance Minister Dunning.

The motion is for authority to borrow up to a maximum of \$750,000,000 to be used for redemption of outstanding loans, purchasing or withdrawing from circulation un-matured securities and for public works and general purposes. It is a formal motion adopted by parliament at necessary intervals so that ample authority may be ready at any time the need arises to negotiate loans.

Will Make An Exception

C.P.R. Steamship Company Not Taking Action Against Stowaway

Southampton.—The Canadian Pacific Steamship Company took the unusual course of asking leave to withdraw a charge of stowing away in Southampton police court against Henry James Bunker, 23-year-old Montreal window-dresser.

A. R. Lightfoot, on behalf of the Canadian Pacific, told the magistrate the company did not want to encourage stowaways, but in this case intended to make an exception.

Bunker apparently stowed away at Quebec aboard the liner Empress of Australia with the idea of joining the Royal Air Force. During the voyage he impressed the ship's officers with his willingness to sleep hard and good behavior. He promised repayment for his passage.

PROMINENT WESTERN FAMILIES LINKED BY MARRIAGE

A scene outside the First Presbyterian Church, Regina, on the occasion of the marriage of Audrey Bell and Charles Edward Michener. The bride is the daughter of Mrs. Bell of Regina, and the late George Bell, well-known Western Canadian newspaperman, and Mr. Michener is the son of Senator and Mrs. E. Michener, of Calgary. Mr. and Mrs. Michener will reside in Sudbury, Ontario.

Arctic Expedition

Party Of University Graduates Sail Northward From Churchill

Churchill, Man.—After several previous unsuccessful attempts, the British Canadian Arctic expedition, 1936-1939, sailed northward recently in the whaleboat Polarc, towing a large canoe for use in case of emergency.

No ice was in sight in Hudson Bay as the expedition, in charge of Thomas H. Manning, set out but they expected to encounter some before they reach Rankin Inlet, their first stop. Other members of the party, all Cambridge University graduates, are Patrick Baird, Dr. Richard Keeling, Reynold Bely and Graham Rowley.

Under the auspices of the Royal Geographical Society, the expedition will spend the first winter at Repulse Bay, 550 miles north of here. The following winter will be spent in the neighborhood of the north magnetic pole and the third winter will be spent in northern parts of Baffin Island and Ellesmere Island.

Counterfeiter At Work

Bank Of Canada Notes Are Raised By Skilful Art Work

Ottawa.—The Bank of Canada disclosed search was being made for a man who had raised three or four of the bank's bills by skilful art work, faking a \$2 bill into a \$20 on one occasion.

Governor Graham Towers said he believed there were not more than four of the bills in circulation and that they had been traced in Ontario and Manitoba.

One of the notes, recovered by police, was of \$2 denomination in the French issue. The numerals \$2 were changed to \$20 and the word, "Deux Dollars" were darkened so as to be almost imperceptible in the lathe-work.

The same words on the lower border of the front of the note were faded out and "twenty dollars" substituted.

British Wheat Reserve

United Kingdom Has Three Months Supply In Case Of War

London.—The United Kingdom's present wheat supply would feed the country for about three months in the event of war cutting off further shipments, Sir Thomas Inskip informed the House of Commons.

The question was raised by W. S. Liddell, Conservative, who asked the defence co-ordination minister what measures were being taken to assure a reserve supply of grain in case of war.

"The question of a sufficient wheat reserve will be considered by the committee which is now engaged in examining the whole subject of food supplies in war time," Sir Thomas replied.

CAHAN CLASHES WITH McGEER ON MONETARY POLICY

Ottawa.—Two men as far apart as the poles in their monetary beliefs, Charles Hazlett Cahan, secretary of state in the Bennett administration, and Gerald Gratian McGeer, financial reformer from Vancouver, crossed words in the House of Commons.

The buttons were off the folds from the start with the Montrealer accusing the British Columbia Liberal of advancing half-baked financial ideas which eventually would lead to wild inflation and ruin for the country.

The man from the far west, just as Cetic as his name indicates, came back in kind, accusing Mr. Cahan of avoiding facts, entertaining false premises and continuing support to a policy that has brought Canada to the brink of disaster.

The former cabinet minister sounded a rally call for men to stand together against inflation which he believed was moving fast into the centre of the political stage in Canada.

"I am on either side of the house," exclaimed Mr. Cahan, "who take a conservative view, not in a political sense but a conservative and perhaps traditional view, must be prepared to advocate what they believe to be sound and sane national policies with regard to monetary matters, whether it cuts against their own political party or the political party on the other side."

By references to post-war Germany and other instances in history, Mr. Cahan pointed to the perils of inflation which he believed led to misery, disaster and ruin in its wake. In his judgment, inflation or no inflation rapidly was becoming a major question in Canada and he promised to do everything possible to stop the printing presses.

Back came Mr. McGeer at him, accusing him of casting sneers and jeers at him because he could not meet his arguments in favor of a managed currency and a central bank that would issue currency and credit in terms of public needs, not for private gain.

Inflation was not his remedy, said Mr. McGeer. "What I do say is that within the limits of our gold reserves, our gold production, our legal tender currency and our practice of creating an effective bank credit transferable by cheque, there is more money available than is necessary to finance the government without a disastrous imposition of taxation."

Code For Girl Workers

National Council Of Women Urge 60-Hour Week

Halifax.—The National Council of Women, in annual convention here, adopted in principle a code for household workers and employers which, among other things, would call for a work week of not more than 60 hours, overtime pay and a minimum wage schedule.

Miss A. M. Ward, of the Halifax Young Women's Christian Association, presented the code and after considerable discussion the convention decided to send it to local councils throughout Canada.

The code presented by Miss Ward was:

1.—Working hours per week should not exceed 60, including meal hours. This would involve (approximately) (a) an 11-hour day; (b) two weekly half-days off, one preferably Sunday.

2.—Minimum wage in cities over 100,000; inexperienced household help, \$17 per month; experienced, \$22. Minimum wage in cities under 100,000; inexperienced, \$15; experienced, \$20.

3.—Overtime work should be paid for either in money or extra time off.

4.—Hours off, rates of pay and general outline of duties should be set at time of employment.

5.—Separate room for sleeping should be provided, and some facilities for entertaining.

Another Amateur Hour.

Plans are under way at the present time to hold another session of Amateur Hour in Stony Plain, on practically the same lines as that which was given on Feb. 21st last, and which was sponsored by our Junior Hockey Club boys. Although the last affair was eminently successful—so much so that a large party of Edmontonians attended—it is quite probable the coming affair will be held under different directors. At the last Amateur Hour here there was only one prize awarded—a \$5.00 first prize. It is proposed now to increase this to three prizes—\$5, \$3 and \$1.50.

Some of our amateurs are sure of an Amateur Hour being held in the near future that a bevy of these are said to practising already—from the lady fiddler to a ten-year yodler.

It has not been decided, as yet, whether the coming Amateur hour will be followed by a dance.

Open Seasons for Game.

Deer, moose, Nov. 1 to Dec. 14
Ducks, geese, Sept. 16 to Nov. 14
Elk, Oct. 1—Dec. 14
Grouse, Oct. 1—14
Hungarian Partridge, Oct. 1—Nov. 30
Fox, Nov. 1—Jan. 31
Mink, martin, otter, Nov. 1—March 31
Muskrat, Mar. 1—April 30
South of N. Saskatchewan river, no open season,
Sunday Shooting is prohibited.

FLEMING'S FOLLY

— BT —
LAWRENCE A. KEATING

CHAPTER XVI—Continued

"That's kind of a crude description, but it'll have to do. Grab that hombre if you see him. Let the rest of us know. We don't want to stir up too much fuss. But we want—that—cash!" he ended with sharp emphasis on each word.

They nodded, jerking their hats lower, hunching cartridge belts, fixing a staryard here and there.

"Suppose we can't find him. What then?"

Link's eyes became brownish-grey pinpoints. "We'll find him."

"Yuh mean we're to raid the bull town if necessary?"

Fleming turned his horse. "I'm going to ride down Main Street as if everything was all right, keeping my eyes peeled. Shootin''ll be a signal he's found, of course. Lavery, you and Shaw go around the other side and do like Waco and the boys are goin' to. It's a crazy idea, maybe," he confessed. "But I aim to find that money if it's in Rawhide—and we've got reason to think it is!"

CHAPTER XVII

The men scattered. Link built a cigarette, lit and lighted it, then urged his mustang at a leisurely walk down the main thoroughfare of Rawhide, sweltering in the heat.

Few persons were visible on the sidewalks, merely a scattering of ranchmen come to town for supplies and to visit the post office. "Hey Link," one man hailed, carrying out the custom of the last seven months. "How's Fleming's Folly comin'?"

Another loafer grunted audibly. "Don't really think yuh'll hold water there, do yuh, Link? Reckon yuh want that dam for a fort, to stand off creditors when they come a-runnin'?"

The six-foot rider grinned—a little wryly, his keen eyes roving the street for a man in a checkered shirt. Also for Jackpot Mell. The gambler might step out of any door, round any building, for the show-down.

"Hey, Link!" Matt Benson called as if reading his very thoughts. "Mell's lookin' for yuh!"

He took out his sigrun and examined it carefully, spinning the cylinder and testing the trigger spring. By no means a professional gunman like his opponent, he nonetheless had had some experience defending himself. Link knew he was fast on the draw, but there was grave doubt in his mind whether he

was fast enough when pitted against a professional killer like Mell. He shrugged his shoulders. There was no way out of it. He would do his best, and the result must be left to fate.

Dismounting before Sam Pickett's store, he tied his mustang at the hitchrail, ducked underneath, and strode with finging spurs across the board sidewalk. A number of customers were in the store, all known to him at least by sight. The holdup was not there.

Link beckoned Pickett aside. He spoke in a tone so low that the grey-haired groceryman leaned to catch it. "Seen a heavy-set chap in here with cuds and a checkered shirt?"

Sam shook his head. "Nope. What's his name? Want him, Link?" He touched the butt of his gun significantly. "I wish you wouldn't mention this. I'm not sure of his name but I want him, yes. Let me know if he comes in, will you?"

Puzzled, the storekeeper rubbed an eyebrow and nodded. "Sure."

Link turned away. Answering as briefly as possible the greetings of the customers, he sauntered out of the place. As he stepped over the threshold he paused for a sharp look up and down the street. It was necessary to keep a keen vigilance for Jackpot.

His errand repeated in Thomas's hardware store and the dingy Old-time Saloon was equally fruitless. In the latter place he discovered Lavery still ordering a drink. From the steady look in his rider's eyes Fleming knew the wanted man had not been found.

The next building in line was the Half Moon. He shifted his gun belt as slowly he approached the place. This was Mell's hangout.

As the door flapped behind him he gave a quick look around. Mell was not present. He stepped to the bar, ordered a drink, and made a more detailed survey. Five men were sitting up a card game at a wall table. Two others stood near Link at the bar. Gus, the rotund server, clapped a glass before him and filled it. As he was sipping the liquid, someone touched his arm.

He turned slowly to find Buzz Hamilton, wearing a queue, harried look. "Link, yuh got that steer money? Here's a note that says yuh should turn me share over to me." He produced a slip of paper and tendered it.

The message was brief and business-like, signed by Helen, requesting that he hand the Triple H share to Buzz. Fleming gave the paper back.

"Haven't the cash right now. Had it, but I got robbed. Set! Don't spread it, Buzz—I trailed one of the hounds to town," he whispered wryly. "The other's 'tyle' out near Junction with a slug in his head."

The ex-convict's heavy eyes, bleary with drink, gleamed in suspicion. "Yuh can't stall me, Fleming!"

There was open hostility between them, but the manner of each man was subdued. "I'm not stalling, Buzz. It's Gus's truth. Why should I stall? You've done the money, and I want my share."

Just then Roper Kilgo entered from the rear. "Hey, Buzz, you got the cash? Then I'll tear up this transfer of yores. I ain't the guy to play cards for paper. I want hard cash!"

Fleming looked at Buzz. "What does he want to transfer?"

His hands closed until the knuckles shone white. "I've got to have that money before noon, and it's up to you to get it to me. That note proves it. Bring me the cash before noon." He glanced with keen anxiety showing through his arrogance. "I've got to have it before twelve."

Link started to ask "What for?" but with a final insistent gesture young Hamilton made for the table at which Kilgo had seated himself.

"They been playin' cards. Buzz lose," Gus, the bartender, whispered. "They play all night, by golly!"

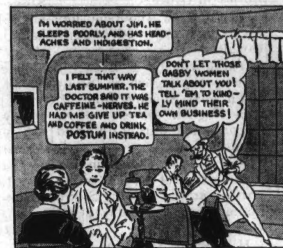

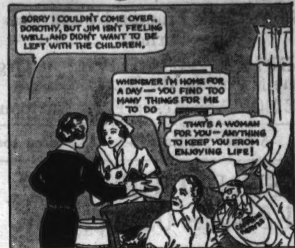

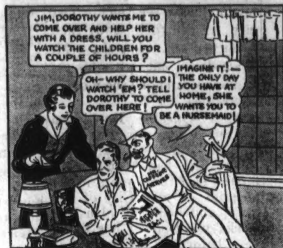

A look of surprise made him lean across the bar. "Buzz, he give Kilgo some kind of baber. And he's drinkin'—plenty!"

Fleming chanced to catch Roper's eye and the rancher indicated that he should sit down. "Come on, have a drink," he invited with a lordly air, rolling a thick black cigar between his lips.

"Reckon not, thanks."

It was more than likely a crude

Mr. CAFFEINE-NERVES . . . another victim gets away!

MANY PEOPLE, of course, can safely drink tea and coffee. But there are thousands and thousands of others who cannot. And, without realizing it, you may be one of these.

The caffeine found in both tea and coffee may be working night and day to rob you of sleep, upset your digestion, or undermine your nervous system.

If you suspect that tea and coffee disagree with you... switch to POSTUM for 30 days. POSTUM is simply whole wheat and bran, roasted and slightly sweetened. It is a delicious drink—and contains nothing that can possibly harm you. It is economical and easy to prepare.

FREE—Let us send you your first week's supply of POSTUM—Free! Write for it to Consumer Service Department 101, General Foods, Limited, Cobourg, Ontario.

attempt to trap him, of course, that suave invitation. Jackpot Mell was certain to enter sooner or later. But Link preferred the shooting, if there was one, to take place outdoors rather than in the Half Moon.

"Aw, Buzz sneered in reply to something Roper said, 'he claims he ain't got the money now. Got to get a check cashed or something.'"

At any rate Hamilton had kept the secret. Link paid for his drink, preparing to leave. As he handed back change Gus whispered to him: "Watch yore adep, Link. He's loagin' for you."

"Thanks," Fleming strode outside. Just then a two-seater buggy drew up to the hitchrack before Pieper's bank and he recognized Helen Hamilton alighting. She saw him at the same moment and beckoned.

"Is Buzz in there?" was her opening question as he approached reluctantly.

"Yes."

She frowned and moistened her cherry-red lips, looking up at him. "Could you—that is, would you mind, if I could talk to him?"

His hands closed until the knuckles shone white. "I've got to have that money before noon, and it's up to you to get it to me. That note proves it. Bring me the cash before noon." He glanced with keen anxiety showing through his arrogance. "I've got to have it before twelve."

Link started to ask "What for?" but with a final insistent gesture young Hamilton made for the table at which Kilgo had seated himself.

"They been playin' cards. Buzz lose," Gus, the bartender, whispered. "They play all night, by golly!"

A look of surprise made him lean across the bar. "Buzz, he give Kilgo some kind of baber. And he's drinkin'—plenty!"

Fleming chanced to catch Roper's eye and the rancher indicated that he should sit down. "Come on, have a drink," he invited with a lordly air, rolling a thick black cigar between his lips.

"Reckon not, thanks."

It was more than likely a crude

He started. "You did?"

"Yes," Roper should give Buzz more responsibility, that it would be the making of him. Why? The girl's wide eyes sought his, and when he did not answer at once she clutched his arm in apprehension. "Link! What has he done?"

"Well," came reluctantly, the signed over your ranch to Roper on some kind of temporary scheme. For cash to play with, I reckon—a loan. He's in a rush for the steer money before noon." He glanced at his watch. "It's eleven now. Must be," he reflected, "Kilgo was fast enough to the Buzz up in some trick agreement. Either he must pay back the money Roper loaned or, if he hasn't done it by noon, the Triple H changes hands!"

The girl's slender fingers went to her lips. "He couldn't!" she gasped, and turned to stare at the stolid front of the Half Moon.

"Yes, I reckon he could. It'd be legal, all right."

Waco Byrne was approaching, still some distance off. At sight of him Halby started from another direction and drew from his pocket a note that touched Link's arm. "Well, you shipped the cattle, didn't you? Where's the money? We'll—we'll take up Roper's note."

"But why are you worried?" he questioned, delaying the truth as long as he dared. "If you and Roper are—well, suppose Kilgo does get possession of your spread? I mean, if you and Roper are to be married. In this state a husband owns his wife's property anyway."

He did not look at her as he spoke, and when he did lift his eyes, Roper's anxiety troubled. "But, Link," she called, "Roper boasted to Jackpot Mell that he didn't intend to marry me! That he was—it was all in order to get the ranch. Sheriff Stephen rode past last night and told me."

"And now—now," she struggled, "he's going to get it by this agreement with Buzz! Oh, why do you stand there?" the girl cried angrily. "Why don't you pay me the cattle money and—and get Buzz out of this

mess? It's ours, isn't it? We're entitled to it, aren't we? Why don't you give it to me?"

The Star Loop riders were almost in earshot, converging as they neared. Link swallowed hard, strove to meet her blazing eyes—but dropped his gaze to the road at his feet. "Gosh, Helen, I would! Only I... I was held up. It's gone!"

Peddler's Son Is Judge

Canadian Elevated To New York General Sessions Court

Jonah J. Goldstein, who journeyed to New York in his early youth from Rocks Corner, B.C., and became a city magistrate, holds a general sessions judgeship at \$24,000 a year.

Mr. Goldstein, just turned 60, passed his boyhood on New York's lower east side.

"I like trying to put together again like a crossword puzzle those who have taken a false step," Mr. Goldstein said.

Mr. Goldstein was born at Rocks Corner, B.C. His father was a peddler. With his parents and two brothers and five sisters he came to New York when he was six years old to live in a tenement house.

A still-life painting of fruit and vegetables by Queen Victoria bought \$8 (\$39.50) at a sale in London. The canvas measured twelve by eighteen inches and was signed "Victoria, January, 1873."

The quantity of nicotine contained in tobacco varies from 2 to 8 per cent, the coarser kinds containing the larger quantity.

Now Australia has evolved an excellent face powder from dried shark brains.

THE GREAT ROBBER

Weeds are the great robbers of the farmer's
income. Careful experiments made by Govern-
ment Experimental Farms and Universities
reveal that on our Western Prairies weeds take
a greater toll than drought, rust, insects and plant diseases
all put together.
Early June summerfallowing and clean cultivation destroy
weeds, preserve precious moisture, so help to increase
farmers' incomes and profits.

Stony Plain and District.

Tuesday next June 23 is
the birthday of His Majesty
King Edward VIII., and a
public holiday.

Mrs Miller Watt and fam-
ily left on Saturday for their
new home at Westlock. Two
city trucks took away their
furniture and chattels. Mr
Watt drove out with his car
and superintended the moving
operations.

Miss Queenie Donaldson
arrived Friday on the Con-
tinental Limited from the
East. She had been a nurse
for the past three years in the
hospital in the City of Ot-
tawa, and will spend a few
weeks' vacation at her home
here before returning to her
duties in Ottawa.

The Laison Anderson mo-
tor party is expected back in
town today.

There will be a Lutheran
service in English in Stony
Plain next Sunday, June 21.
This English service will be
discontinued during July and
August.

Still another change in the
running time of the mailtrains
arriving at and leaving Stony
Plain, effective Sunday next,
June 21.

Hil's Snack Shop has been
treat to a new coat of white
paint.

A petition is in circulation
asking the town council to
have the big fat poundkeeper
who looks after the cows, to
have him keep bicycle riders
off the sidewalks.

At the last meeting of Inga
Councillors Mr James Eatock
Sr. was appointed weed in-
spector in Div. 2.

BUTTER AND EGGS WANTED
at The Royal Cafe.

Church Anniversaries.

On Sunday next, June 21,
the 25th anniversary of the
opening of St John's Lutheran
Church at Blueberry will be
celebrated. There will be a
service in the morning, at
which the Rev E Eberhart will
preach. In the afternoon Rev
H Fry of Golden Spike will
deliver an address. Rev H
Kuring, pastor.

Holborn Happenings.

There will be a lecture-demon-
stration given by Miss Milne of the Al-
berta Women's Bureau of the Dept.
of Agriculture, at Holborn Hall on
Sat. Aft. June 20, on "Foods and
Nutrition." Everyone invited.
Miss Margaret Archibald, Vice-
Pres. of Junior U.F.A., speaking at
a recent convention, said:
"We elected a government to
bring prosperity and solve our econo-
mic problems. But I do not think
that a tax on the gunny sack dresses
of the Undernourished Fool Women
of Alberta, and then a tax on the
soap to wash them with, will solve
the problem."

Meeting of Delegates.

The Western Canadian Divi-
sion of The Evangelical and
Reformed Church, comprising
the provinces of Manitoba,
Saskatchewan and Alberta
will convene in annual ses-
sion in Glory Hills Reformed
Church on Wed. Evg., June
17. A 3-day business session
will be conducted, closing
with 2 public worship ser-
vices on Sunday, June 21st.
Morning service 10:30; after-
noon 2:30. Dinner will be
served at the church. Every-
one is cordially invited to at-
tend these services.

Sporting Notes.

—BY H. C. O.—

Stony's ball tossers climbed
back into the League race by
defeating Gibbons here on
Sunday. After the smoke of
the home-run brigade, had
cleared away the final count
stood at 16-9. This game
marked the first defeat for
Gibbons in the League. Tak-
ing that as our cue, doesn't it
seem reasonable to say that
we've got as good a ball club
as there is in the circuit? Oh,
well! the next few games will
either put us at the top or the
bottom.

One bright feature of Sun-
day's game was the number of
home runs—4 in all. The vis-
itors took 2, and for Stony F
Dreitz and P Enders did it
all to clinch the game for
Stony in the 8th inning. Her-
man Loeblich pitched, and
had little difficulty at any
stage.

Last Friday Gibbons de-
feated Stony at Gibbons 5-2
in a game played in cold,
breezy weather.

Next week we shall have
the starting lineups for the
baseball and basketball on
July 1st.

Stony's next home game is
billed for Friday, when we play
hosts to the North Edmonton
crew.

LEAGUE STANDING.

Gibbons	Won.	Lost.	P.C.
Gibbons	5	1	.833
Fort Sask	3	3	.500
Stony Plain	2	4	.333
N. Edmonton	2	4	.333

"Stamped Scrip."

Authorizing the issue of "stamp-
ed scrip" by the Provincial Gov-
ernment to the amount of \$2,000,
000, the necessary necessary or-
der in council, bearing the signa-
ture of Lieut-Gov. Walsh, was re-
turned to Premier Aberhart on
Friday.

With the order signed, the plan
is now operative in this province.
It will be 2 or 3 weeks, however,
before the scrip will be in circula-
tion.

The order authorizes the issuing
of scrip in denominations of \$1 and
\$.50. Certificates of \$1 denomination
call for a 1c stamp weekly to be
affixed by the holder during a 2
year period. In the case of the \$.50
scrip, a 5c stamp is to be attached
weekly for 2 years, at the end of
which time they are redeemable by
the Provincial Treasurer.

Spruce Grove News.

Mr and Mrs M Duchoike
made a motor trip on Sunday
to friends at Cherhill.

Mr Stitt and Mr Trapp of
the Dominion Day Sports
committee held a confab Sun-
day evening regarding en-
trants for the basketball com-
petition July 1st. It was ex-
plained to Mr Stitt that it's a
rule of the game that mem-
bers of a team must be bona
fide residents of the district
from which their team comes.

Arrangements are under
way for the holding of a bas-
ketball tournament on local
grounds the evening of Fri-
day June 26.

On Sunday the Grove ball
players went down to Gro-
via and beat Graminia 16 to
9, with Mr Goebel pitching.
Following this game, Sand
Hills played Graminia. It was
during the playing of this
game that a basemen on the
Sand Hills team was struck
in the side with a pitched ball.
He was taken to an Edmon-
ton hospital, where he received
medical attention.

Were you a member of the
work party which operated
here last week, for the purpose
of levelling and improving the
high school grounds?

Two enterprising magazine
subscription canvassers were
operating in the Grove Sat-
urday afternoon. The new wrinkle
was, you were asked to pay
down only the postage on a
2 year subscription—48c. The
canvassers claimed they "made
expenses."

The C.N. train service was
chauged this week. The train
from the East arrives at 10:10
p.m. 3 times a week, and the
train from the West arrives at
5 a.m.

The crops in this district
are looking fine at the present
time, the recent showers hav-
ing done a lot of good.

For a big meal or a good
lunch, try Jack Nichols, at the
Hotel Restaurant.
